THE STARR CENTRE STAFF

KINDERGARTEN—Miss Marguerite Weston, *Director*; Miss Elizabeth B. Fleming, *Assistant*; Three Under-Assistants from Miss Hart's School.
 LIBRARY—Miss Fannie E. Rocke, *Librarian*; Miss Louise E. Bettman, *Assistant*.

MEDICAL DEPARTMENT—Dr. William N. Bradley, *in charge*, Dr. G. H. Atkins, *Assistant*; Miss Elizabeth R. Blair, Miss Grace L. Craig, *Graduate Nurses*.

BABY SAVING STATION—Miss Emma West, *Saleswoman*.

OFFICE—Miss Laura K. Mackey, Miss Marion S. Evans, Miss Elizabeth I. Lippen.

WOMEN'S LUNCHEONS—Mrs. Frances E. Howard, Mrs. Eliza H. Smith.

READING CLASS, STORY HOUR, THRIFT WORK IN SCHOOLS—Miss Louise E. Bettman.

SCHEDULE OF WORK AT STARR CENTRE 1912—1913

DAILY EXCEPT SUNDAYS

OFFICES—725 Lombard Street: Open 9 A. M. to 5.30 P. M. to transact all business of the Association.

BABY SAVING STATION—Seventh and Catherine Streets (Casa Ravello).
Milk for babies sold 12 M. to 3 P. M., and at 9 A. M. on Sundays.
Clinics at 1 P. M. on Week Days.

DOCTORS AND NURSES—In attendance at all clinics. Nurses on duty 9 A. M. to 5.30 P. M. Visit the homes for care of the sick and instruction of mothers.

KINDERGARTEN—Open 9 A. M. to 12 M. on all school days. For neglected children, black or white.

LIBRARY AND READING ROOM—Open 3 to 9.30 P. M. for circulation of books and to provide opportunity for school children to prepare lessons. Quiet games for younger children.

PENNY LUNCHESES—On sale each school day during morning recess at James Forten School, McCall Annex and Starr Centre Kindergarten.

STAMP SAVINGS IN SCHOOL—For the promotion of thrift among children. Saving stamps sold each school day in all public schools of the Seventh Ward and in the James Forten School of the Fifth Ward.

SEWING CLASS—For girls from 8 to 18 years of age on Thursdays.

STAMP SAVINGS—Savings Stamps for the encouragement of small savings are always on sale in the Offices, the Library, and at Casa Ravello Station.

STORY HOUR—Weekly at 4 P. M. for little children.

THE PRESIDENT'S REPORT

In presenting the report of the past year's work, to our friends and contributors, we would thank each one most sincerely for the help given us during the year just closed, and we would ask each of our friends to examine carefully the statements regarding the work, and to give us the benefit of any suggestions or criticisms they may feel will help to increase the efficiency of any branch of our activities.

Many of the principal points of interest, showing the vitality and growth in the different departments of our work, are noted on the following pages, but of course these are only suggestive, and we must not forget that we are dealing with human beings and are striving to build up each in body, mind and character, and to have a part in making worthy citizens of Philadelphia and of the world.

No changes in the policy of the work have been adopted by the Board during the past year. But it is the unanimous decision of the Board to develop each branch of our activities to its fullest usefulness, making changes in details as circumstances and careful study seem to warrant.

It is a pleasure to realize that every one of our activities is of a constructive educational character with an outlook toward the future full of hope. This is so, largely because we are dealing almost exclusively with children, the great majority little children, babies in the Baby Saving Station, kindergarten children, children in our Library, etc. We believe in our work, because we believe in the children, in their worth, possibilities and future. For this reason we thank our friends for their help in the past, and we would all the more earnestly request a continuance of their steady support during the coming year.

HENRY H. COLLINS, JR.,

President.

GENERAL SECRETARY'S REPORT

During the year 1912-13 at Starr Centre each of its many activities has been carried on vigorously and progressively, and each department records greater results achieved. From the vantage ground we now occupy we see still greater things ahead, and are moving forward as rapidly as sound judgment and circumstances allow. It may surprise our friends to know that our work touches directly four or five thousand individuals each year, besides influencing indirectly other thousands in the families of these. In this brief review it seems best to emphasize especially the points in which the work has differed from, or has improved upon, that of previous years.

THE LIBRARY—Organized 1884

| | |
|---------------------------------------------------------|--------|
| Total Circulation for Year (one book at a time) | 35,112 |
| Daily Average Circulation | 115 |
| Average Circulation per Reader (approximate) | 22 |
| Number of Different Readers (approximate) | 1,600 |

The general policy and method of conducting the Library has not changed. It is still open every day in the year, except Sunday and a few legal holidays. It seems to become more popular every year, and during 1912-13 a very careful estimate shows that it was used by about 1600 different readers, besides a considerable number of others, who for one reason or another do not take out readers' cards.

The number of books circulated increased more than 18.2 per cent over the previous year, and we were able to handle this large increase without additional expense. It is interesting to know that at the present time about 82 per cent. of our readers are attending school, high school, business college or some university. About 13 per cent. are working and 5 per cent. are at home. Thirty-five different educational institutions are represented among our readers, including four Philadelphia high schools, Temple University and the University of Pennsylvania.

The Starr Library is to many of our readers a family institution, as year by year the younger members of the family are brought to it, and secured its privileges by their older brothers and sisters who have experienced its helping hand in their own lives. This personal hold that we have on these boys and girls growing up in sections of our city where good influences are none too many is, we believe, a most vitally important part of our work.

PENNY LUNCHESES—Started 1894

| | |
|---------------------------------------------------|--------|
| Lunches Served During School Year | 82,296 |
| Lunches Served Increased Over Last Year | 15.7% |
| Children Served per Day (approximate) | 400 |

Starr Centre was the pioneer in organizing School Lunches in Philadelphia more than fifteen years ago, and we feel that it is a great honor

New Kitchen at McCall Annex School

to have been a pioneer in the movement which has swept the countries of the Old World, and has been made the subject of national legislation in France, Switzerland, Holland, Great Britain, Denmark and Bavaria. The movement is national in scope also with municipal

support in Germany, Italy, Sweden, Norway, Finland, Austria and Belgium. In the United States seventy-seven cities have school lunches,

and in at least thirty of these cities, the lunches are a part of the public educational system. The need for school lunches is emphasized by the fact that 10 per cent. of the school children in our American cities are so seriously under-nourished that they cannot take advantage of the education offered them.

We are, this year, extending our penny lunch work so as to furnish

New Lunch Room at McCall Annex School

three-cent noon lunch at the McCall Annex, in addition to the morning recess lunch which we have conducted there for a number of years. The majority of the children in this school are in special classes, and the noon lunch is rendered imperative by the special class of crippled children, organized there in September, 1913. All children in special classes need the lunches very much more than even the ordinary normal pupil. The Board of Education has recently fitted up an excellent kitchen and lunch room in

his school, and the work is, therefore, on a much more satisfactory basis than before.

KINDERGARTEN—Organized 1901

| | |
|-----------------------------------------------------------|------|
| Children Enrolled September 1912 to June 15, 1913 | 90 |
| Children Enrolled June 17 to August 15, 1913 | 79 |
| Average Daily Attendance During School Year | 43.5 |
| Average Daily Attendance during Summer Session | 39 |

The Kindergarten work has shared in the year's progress. The enrollment for the year increased 26 per cent. over the previous year. Miss

Marguerite Weston has continued as Director, giving her services and also paying the salary of the Assistant. Starr Centre, however, paid for the supplies and certain other incidental expenses. During this coming year Miss Weston will continue to give her services as Director, but it will be necessary for Starr Centre to pay the salary of the Assistant, and also to buy all necessary supplies. This year, for the first time, the Kindergarten was kept open during the summer months, being in session up to August 15th. The funds necessary to finance this summer session were

Rough Diamonds from our Kindergarden—
October 1913

raised by Miss Weston, and Starr Centre contributed the expenses of an outing in the park for the children each week. The average number at these outings was 65 children.

THRIFT WORK IN THE PUBLIC SCHOOLS—Started 1908

| | |
|--------------------------------------------------|------------|
| Number of Accounts Opened During School Year.... | 2,111 |
| Number of Different Depositors..... | 1,468 |
| Total Savings During School Year..... | \$1,534.06 |

Our Worker has continued to call each day at the Anna Hallowell Thomas Durham and James Forten schools, for the collection of the childrens' savings. The number of pupils who have opened accounts this year is greater than ever before. But the children have had less money to save owing to hard times. It is interesting to notice that the pupils in the Thomas Durham school, who are all colored, averaged \$1.10 per depositor, while the pupils in the James Forten school, who are largely Jewish children saved only \$.96 per depositor. The colored children also left their money on deposit longer than the other children. It would seem from this that we are succeeding in interesting the children who most need to save their money.

OTHER THRIFT WORK

Besides this work in the schools, we have continued to collect the savings of the children in the Library, our Office and at our Milk Station. The number of depositors, almost exclusively children, at these three offices is estimated to have been during the year 968. They saved \$1,885.07 and this was accomplished without any additional expense to Starr Centre.

BABY SAVING WORK—Organized 1905

| | |
|-----------------------------------------------------------------------------|--------|
| Babies Under Two Years of Age Treated at Dispensaries | 682 |
| Other Patients Treated at Dispensaries | 367 |
| Visits by Patients to Dispensaries | 6,401 |
| Increase in Such Visits Over Previous Year | 187% |
| Home Visits Made by Trained Nurses | 2,620 |
| Quarts of Whole Pasteurized Milk Sold on Physician's Prescription | 22,170 |
| Average Number of Babies Served with Milk Each Day | 65 |

Several Starr Centre Mothers, Each With Her Twin Babies

Photograph taken November, 1913

The plan of work outlined in our report for last year, and also made familiar to our friends through the booklet published during the year, has

been continued with great success. At the beginning of the year we had one regular nurse, and a second nurse who was employed temporarily. This second nurse was continued all through the year, and a third nurse is imperative at the present time, in order to care for the babies who are coming to us in ever increasing numbers. For the same reason, a second doctor was employed during the summer months, and is still needed to care for the babies. The increase in the number of patients, almost entirely babies, coming to our dispensaries is shown by the figures given above.

Group of Mothers, Babies, and Children, At Baby Saving Station, November, 1913

In March, 1913, we closed the Dispensary at 729 Lombard Street, which had been open three days per week, and opened the Dispensary at Seventh and Catharine Streets every day except Sunday. The immediate and continuing result of this policy has been an increasing number of babies coming to our doors. While the average number of patients per day during the first six months of the year was 14.5, during the last six months the average number was 26.5.

The emphasis we place upon breast feeding for babies has shown remarkable results during this year. In October, 1912, the bottle fed babies coming to us were 37 per cent. of all the babies under one year of age. In September, 1913, the bottle fed babies were only 21 per cent. of the babies under a year of age. In the same way the breast fed babies in October, 1912, were 29.8 per cent., and in September, 1913, were 59.1 per cent. of all the babies under one year of age, an increase of almost exactly 100 per cent.

With the help of the oversight and care which our doctors and nurses are able to give the babies, a very large proportion of them gained as rapidly as normal babies under the best conditions, and many of them gained more rapidly. This was especially noticeable among the breast fed and partially breast fed babies. During the coming year we intend to continue the work along its present lines, but unless we secure funds for a third nurse we shall have to limit the number of babies that come to us, as we cannot care for more babies with our present force of two nurses.

We have continued to dispense pure, pasteurized whole milk at cost. Beginning early in July, 1913, the Milk Station has been open on Sunday, for a short time, to provide a fresh supply of milk for the babies on that day also. Dr. George Woodward has continued our free use of the fine quarters of the Casa Ravello Baby Saving Station.

ALBERT L. JONES,
General Secretary.
